

## THE KANSAS CITY STAR

115 WEST SIXTH STREET.

KANSAS CITY, Mo.—MISSOURI.  
The Star is published every evening (Sunday excepted), served by carriers in Kansas City, Missouri, and surrounding towns, twenty cents per week. Elsewhere when served by carriers twelve cents per week. Price per copy, two cents per day. Extra copy, five cents per month payable in advance. Persons desiring to have their names removed from the list of subscribers, or to change their address, can do so by sending a typewritten card request, or order through telephone No. 815. Where delivery is irregular, please make arrangements with your carrier.

The Star is entered at the postoffice at Kansas City, Mo., for transmission through the mails, as a second-class matter.

The Star controls exclusively the news of special telegrams.

The Star is a larger evening-daily elevation than any other newspaper published between St. Louis and San Francisco.

Address THE STAR, Kansas City, Mo.

TUESDAY, NOV. 10, 1885

Price 10¢.

For this section: Number 1 fair weather, except extreme north portion; least rains of winter, variable winds, shifting to colder.

Aneroid barometer—8 o'clock a.m., 30.23; 19 m.

same date last year: Min., 40; Max., 61.

MARSHALL'S paper, the Richmond Whig, has gone into the hands of a receiver. As the assets of the concern consist chiefly of a large quantity of Mr. MARSHALL's "high moral principles," the prospects for creditors reading much on their claims are mighty poor.

M. BARTHOLOMEY is in Washington. He should stay there until congress meets in order that he may form a fair estimate of the body of men which steadfastly refused to furnish a pedestal for his magnificent gift to this country, and compelled this people to resort to the penny subscription scheme of raising money.

LAWRENCE BARRETT was much shocked at the news of JOHN McCULLOUGH's death, and walked the floor of his room at his hotel in St. Louis for half an hour, soliloquizing on the sad news. He said McCULLOUGH was a wonderful man and a great actor, and that his personal magnetism was such that the most ardent friends wherever he went without apparent effort on his own part.

ANOTHER great cut is announced in telegraph rates, which will be good news to the commercial interests of the country, but may not be so pleasant to the holders of the various telegraph stocks, and in the long run may prove a bad move for the patrons of the telegraph. The object, of course, is to break down competition, and if that result is secured will still gain advantage.

THE COUNCIL should by all means grant the appropriation asked for by Supervisor of the Census TINSLEY to complete the work of summarizing the returns of the late city census. There are many interesting and valuable facts in regard to the occupations of our people, etc., which should be arranged in intelligible shape, and as the expense of doing would be very small it would be a economy to refuse the necessary appropriation.

MAJOR EDMUND MALLETT, of Washington, "a well known worker in the French cause," whatever that is, had an interview with the president yesterday, in which he made a strong appeal in behalf of LOUIS RIEL, the northwestern rebel sentenced to be hanged on the charge of treason. He wished to have the president attempt interference with the execution, but Mr. CLEVELAND, after consulting with Secretary BAYARD, concluded the United States had no right to interfere in the matter, and so informed Major MALLETT.

It seems almost certain that RIEL, the leader of the half-breeds revolt in British America, will be hanged on the 16th inst., as per programme. But while his execution may for a time overawe and keep in subjection the disaffected elements in the north-west territory, it is not so clear that it will result in their permanent submission to the Dominion government. These people doubtless have much cause for complaint, and the death of RIEL might possibly prove a torch to light fires of rebellion more serious than those so recently suppressed.

EDITION STEAD of the Pall Mall Gazette, expresses himself as willing to abide by the sentence of the court in the Armstrong abduction case, in which himself and Mrs. JARRETT were convicted on Saturday, and says he will make no effort to have the sentence set aside. He says that of the seventy or more columns of stuff published in the Pall Mall Gazette, Mrs. JARRETT was only responsible for three or four, and that everything printed was true. He says he will submit gracefully, but hopes the court will deal lightly with the woman.

THE NEW YORK Republicans are engaged in a bitter wrangle as to what caused the recent Republican defeat in that state. The Times assigns the blame to the BLAINE men, and this makes the Tribune man mad, and he abuses the Mugwumps, and says every Mugwump votesthe party three Irish votes. He asserts the Mugwumps are free-traders while the Irish are protectionists; hence the reason why he is.

STRENGTH AND SCIENCE.

Grolier and Andre Delmas Wrestle for Blood—The Greek Wins the Match.

The immense crowd that thronged the Wall Street, New York, on Thursday evening, was called to meet at the same point next Thursday evening at 7:30 o'clock in connection with the grand avenue property owners. They united in objecting to the cable company for the use of their property, and decided to consult with the council committee with a view to making the corporation alter its ordinance. They want the company to pave the street, pay for the condemnation of property necessary to widen it from Main to Campbell, and defray all expenses that might result from the removal of trees, shrubs, etc.

JAMES IRVING CRABBE's illustrated lecture on "The Land of the Mikado," at the Music Hall last night, drew a houseful of spectators and intelligent audience. The lecture was full of instructive points and was highly appreciated. The series of lectures will be continued to-night.

THOMPSON'S "Mikado" will be given at the Coates Thursday night.

Hailey's minstrels are booked for an early appearance at the Coates.

A New Line Opened.

Mr. J. E. Lockwood, general passenger and ticket agent of the Fort Scott road, has issued a circular announcing that from Kansas City, Topeka & Springfield railway is now completed, and trains are running between this city and Ash Grove via Harrisonville, Clinton and Osceola. The following is a list of the towns along the new line:

Benton, Pleasant Hill, Harrisonville, Garden City, Emporia, Lawrence, Topeka, Wichita, and Hutchinson.

The circular concludes as follows:

But one company is required from Kansas City or Memphis to take up above points, which will be the best for the colored population.

James Irving Crabb's illustrated lecture on "The Land of the Mikado," at the Music Hall last night, drew a houseful of spectators and churches and agricultural implements for use on their reservations or shall we demand them in severity and leave them to their own resources? One trouble he found was to get rid of the influence of old chief, F. W. Grimes, while it may not be well for the cause to let him go. In the present situation, all observations would be given to him in severity and the Indians thrown on their own resources. The president intimated that he hoped to be able to make a beginning in the right direction during the remaining years of his administration.

THE TURNER EXAMINATION.

Conway Still on the Stand—An Exhaustive Examination.

At a recent meeting of the Order of Elks in St. Joseph, yesterday, where she has been working, in a few days the William Stone, Etheridge, Osceola and machine boats will leave for St. Louis, to winter, since the work for this season is practically over. There will be eleven pieces going, an extra pilot for each boat is here to help matters through. The river men say that the work for this season has been better than usual, well managed, and all possible done.

ORDER OF ELKS.

At a recent meeting of the Order of Elks in St. Joseph, yesterday, where she has been working, in a few days the William Stone, Etheridge, Osceola and machine boats will leave for St. Louis, to winter, since the work for this season is practically over. There will be eleven pieces going, an extra pilot for each boat is here to help matters through. The river men say that the work for this season has been better than usual, well managed, and all possible done.

Order by an Elevator Rope.

Wm. Castle who works for L. B. Austin, met with an accident yesterday afternoon while letting out a rope from the top of a building. The elevator got started too fast, and in attempting to stop it he pulled on the wrong rope. Then he grabbed the check rope which broke. A piece of iron struck his eye, which he is.

CONGRESSMAN FRANK LAWLER, of Chicago, has joined in the Bourbon hand against the president's civil service policy. This is no surprise to anybody who knows the Chicago congressional and will have no influence with those who are familiar with his antecedents and history. LAWLER is a coarse, illiterate man who gained his knowledge of public affairs from the conversation of ward politicians in the grogshop over which he presided. His debut in an official life was made as slender as from the toughest ward in Chicago.

GOING OVER THE GROUND.

Table Engineer Robert Gillham to Make Known His Decision Between Troost and Forest Avenue in a Day or Two.

The question of the practicability of the Forest avenue route for the southern cable extension will be decided by Mr. Gillham in a day or two.

Trunks Stolen.

W. P. Conners, 1608 Park avenue, office in Sheidley building, reports that some one entered his barn and stole two trunks filled with ladies' and children's clothing. He suspects a colored man who assisted in cleaning house.

Fond of Rambling.

Mrs. Grey, of 720 Locust street, reported this morning that her 3-year-old child had wandered away from home. The same child was reported missing last week.

Licenses Issued.

Licenses were yesterday issued to the following: J. S. Stack and Miss Annie E. Smith, both of this country; W. A. Parker and Emma Culley, both of this country.

Indignant Citizens.

An indignation meeting will be held at Ninth and Mulberry streets to-night to take action to redress the tearing down of the Bluff street steps.

Police Court News.

In the recorder's court, this morning, there were twenty-two convictions, seven drunks, five peace disturbances, nine nuisance cases, and one for carrying concealed weapons. On the last charge Henry Parker was fined \$51.

The others were fined the usual amounts.

A curious incident occurred during the trial of the Bluff street steps, when the man who came to town and let "that which doth intoxicate" get the best of him pleaded guilty, and immediately began taking off his shoes. He picked out the right foot, and in a

moment his bare foot rested on the floor, while in his hand dangled a big wool sock. He began ramming around in its roominess, and then triumphantly fished out a \$20 gold piece, put on his shoe again, paid his fine and departed.

JOHNSON SHOT HIMSELF.

Result of the Inquest Over the Remains of the Dead Barber.

The inquest which was begun yesterday morning, in which Charles Johnson, the colored barber who met his death under peculiar circumstances Friday night, terminated last night, and the jury returned a verdict of death by suicide.

The circumstances connected with the death of Johnson are well remembered. Friday morning he was shot in the barbershop, which he claimed he owned. Stevens soon discovered the shop was already occupied, and went in search of Johnson. After 10 o'clock the two entered the barbershop and remained there until about 12 noon, when the two men were first suggested to the council, all the city officers wanted to move at once and began packing their personal effects in anticipation of a speedy and agreeable change. Several buildings which had been used by the council were examined and reported upon, and one of them, situated at Ninth and Walnut streets, would be chosen. This announcement stirred up strong opposition from the property owners in the northern part of the city, and it was hinted that the members of the council were compromised by the council members offices.

A meeting was called to consider the matter, and the council voted to move to another place.

Mr. STONE, a large, strong, dark-colored man, who is a newspaper publisher between St. Louis and San Francisco.
